Sorry, the FR Notice was signed by ORD political – now it still has to go through the rigors of public affairs and FR office....so, we are likely a week or so away from 'public' release, although we will likely transmit to CASAC soon. We are hoping the Administrator's briefing can be scheduled soon.

That is interesting. So, what does that mean? Release before or after Administrator briefing?

Interestingly, the FR notice that announces the release of the PM ISA was just signed.
